

Oak Canyon Birds

Name: _____

Date: _____ Time of Day From: _____ To: _____

Instructions: Tally each observed bird according to its primary food.

Birds	Primary Foods								
	Insects	Seeds	Acorns	Nectar	Mammals	Birds	Aquatic Animals	Omnivore	Carrion
Acorn Woodpecker									
American Crow									
Anna' Hummingbird									
Belted Kingfisher									
Black Phoebe									
Brown Towhee									
Bushtit									
California Quail									
California Thrasher									
Common Raven									
Cooper's Hawk									
Goldfinch									
Great Blue Heron									
House Finch									
House Wren									
Mockingbird									
Mourning Dove									
Red-shouldered hawk									
Red-tailed Hawk									
Scrub Jay									
Turkey Vulture									
Verdin									
White-crowned Sparrow									
Yellow-rumped Warbler									
TOTALS									

Grand Total _____

Bar Graph Showing Proportion of Birds at Oak Canyon Based on Primary Food Source

Instructions:

1. Using the “totals” on the previous page, calculate the percentage of birds for each food type.
2. Enter percentage values in the appropriate cell at the bottom of the graph.
3. Based on these values, draw a vertical bar graph.

Acorn Woodpecker

Food: insects, acorns

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

American Crow

Food: omnivore

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Anna' Hummingbird Food: insects, nectar

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Belted Kingfisher Food: aquatic animals

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Black Phoebe		Food: insects	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

Brown Towhee		Food: insects	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

Bushtit		Food: insects	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

California Quail		Food: seeds	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

California Thrasher Food: insects

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Common Raven Food: omnivore

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Cooper's Hawk		Food: small birds
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary	
	Plant Associations:	
	Comments:	

Goldfinch		Food: seeds
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary	
	Plant Associations:	
	Comments:	

Great Blue Heron		Food: aquatic animals
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary	
	Plant Associations:	
Comments:		

House Finch		Food: seeds
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary	
	Plant Associations:	
Comments:		

House Wren		Food: insects	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

Mockingbird		Food: insects	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

Mourning Dove		Food: seeds	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

Red-shouldered Hawk		Food: small mammals, small birds	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

Red-tailed Hawk

Food: small mammals

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Scrub Jay

Food: insects, acorns

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Turkey Vulture		Food: carrion	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

Verdin		Food: insects	
	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary		
Plant Associations:			
Comments:			

White-crowned Sparrow **Food: seeds**

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

Yellow-rumped Warbler **Food: insects**

- Over-flight / above treetops
- Through-flight / below treetops
- In trees / bushes
- On ground under trees / bushes
- On ground exposed
- In groups
- Isolated / solitary

Plant Associations:

Comments:

	<input type="checkbox"/> Over-flight / above treetops <input type="checkbox"/> Through-flight / below treetops <input type="checkbox"/> In trees / bushes <input type="checkbox"/> On ground under trees / bushes <input type="checkbox"/> On ground exposed <input type="checkbox"/> In groups <input type="checkbox"/> Isolated / solitary
